A Busy Session

The Wetaskiwin town council had a special meeting in the hall first on Thursday evening of last week for the purpose of transacting town business. Those present were: Mayor McKay, Couns. West, McEachern, Gould, Olin, Swoboda and Finch.

Inward correspondence was read from:

- J. M. Parsons, Canada Fire Engine Co., fire apparatus
- National Trust Co., Ltd., re \$12,000 debentures
- John McKay & Co., Toronto, re \$12,000 debentures
- Wm. C. Brent, Toronto, re \$12,000 debentures
- Obrien & Forbes, re Mr. Hamill's bill
- J. A. Ditch, re seating of hall.

A petition was received for supply of seven Victor fire extinguishers from Drury Hotel, Queens Hotel and E. M. Angus.

The fire, water and light committee reported that in pursuance of the petition they were requested to recommend to them that they would recommend the purchase of twelve of these extinguishers to be placed at the points requested, and on the usual terms of the town in case of these extinguishers, namely, half to be paid by the town and the other half by the pur-

Gould-Swoboda.—It was unanimously agreed that the report of the fire, water and light committee regarding these extinguishers be adopted.

The public works committee reported that in pursuance of a motion passed at a meeting on the 8th inst. requesting the town council to have a franchise for sale in Wetaskiwin, that Mr. H. D. Faris had a safe (Taylor made) for sale, weight 1500 lbs., in use four months, quite new and in first-class condition, for which he will give a clear bill of sale and immediate possession for the sum of \$175. The safe cost \$300 in London.

Mr. Johnstone, for the Taylor safe, addressed the council and urged them to purchase a new safe, stating that when a safe is sold second-hand the company withdraws its guarantee.

West-McEachern.—It was unanimously agreed that the secretary-treasurer be authorized to purchase Mr. Faris safe at \$175, and arrange for a suitable payment to him.

The license, health, temperance and parks committee reported that in the debate of the question of a statute being allowed in respect of unexpired time on hotel licenses—Dridar and Criterion—this committee would recommend that the payment of license fees for 1904, the same to be allowed a proportionate rebate for unexpired time on 1903 leases, off their payment for 1904 license.

In reply to a question from Coun. Gould, it was stated that it would take upwards of a year to determine operations, and he would like a limit of three years to develop, as there might have to dig two or three wells. He would also like to have the privilege of installing an artificial plant if natural gas could not be found.

The Scandinavian Store's proposition was a good one in the company guarantees to take the matter out of the hands of the town. The workmen would be here and spending their money in the meantime.

Coun. Finch thought the proposition very good; but was prejudiced against natural gas, as he was the one who brought up the question of lighting the town with gas.

In reply to a question from the report of the medical health officer he advised that he was authorized to inspect and that he was authorized to inspect at once for the town the discharging lamp named by him.—Carried unanimously.

In the matter of the correspondence between the medical health officer was presented and submitted a report on the health of the town, in the course of which he suggested the purchase by the town of a disinfecting lamp for town use.

The early part of the meeting was taken up with the preliminary matter of appointing committees, etc. Upon motion of C. D. Alger and O. Bredeson the presidents of the local Liberal associations of Strathcona, Wetaskiwin, Lacombe, Red Deer and Innisfail were appointed a committee on credentials. On motion of J. McKenzie and N. D. Mills and A. C. Rutherford, M.L.A.; A. S. Rosenroll, M.L.A.; P. Talbot, M.L.A. and J. A. Simpson, M.L.A., act as committee on procedure and resolutions. This committee was also empowered to add to their number. The meeting then adjourned to await the report of the committee.

The report of the committee was adopted the following report was submitted by the committee on credentials:

That an informal ballot be first taken without nominations. That an opportunity be then given the candidates whose names were mentioned to retire from the field. That subsequent ballots be taken until one candidate should receive an absolute majority of the votes cast.

Upon the taking of the informal ballot, S. Wilson, C. H. Swanson, Peter Talbot, A. C. Rutherford, M. McCauley, J. A. Simpson, C. D. Alger and A. R. Dickson were placed in nomination as candidates to contest the seat.

Mr. Wilson was first called upon to address the meeting. In a brief but forcible manner he explained why it was to the interests of the people of the west to support the principles of the Liberal party. Low tariff and additional transportation facilities were the greatest needs of the west.

Peter Talbot, M.L.A., was the next speaker and his advance to the platform was greeted with prolonged applause, clearly showing the popularity he has among the people of the constituency. He had been a friend of A. C. Rutherford, M.L.A., for years, having been a seat mate at school thirty years ago. If Mr. Rutherford would stand for nomination he would not allow his name to go before the convention. If Mr. Rutherford declined, it was perhaps his duty to allow his name to be voted upon. In an eloquent and impressive address he showed how and why the Northwest had prospered under the Liberal government, as lead by that greatest of all modern statesmen, Sir Wilfrid Laurier. What the west wants is more people. This the west never got except under the Liberal government. The phenomenal success of the west can be traced directly to the Liberal government. The created question before the people today is the transportation problem. The C.P.R. at present had a tight hold upon the country and if allowed another period of monopoly, no company would be able to compete with them. The west must have better and increased transportation facilities and now is the time to secure them. No other deal so favorable to the people of the west will be presented as the people as the Grand Trunk Pacific scheme. On provincial autonomy the speaker believed this should be granted to the Territories as soon as suitable terms could be secured. This was not a question of immediate importance, but rather

one of terms. If we can secure proper and just terms then the Territories should be given autonomy. Mr. Talbot concluded by stating that whoever secured the nomination of the convention he was prepared to work night and day for his support.

Mr. Rutherford, M.L.A., was next called to the platform amid ringing cheers. It was plainly evident that Mr. Rutherford was the choice of the delegates present as their standard bearer. The speaker stated him that in view of the evidence shown him that the constituency wanted him to lead them in the coming campaign that for business and personal reasons it would be impossible for him to accept the nomination, and he took pleasure in retiring in favor of Mr. Talbot.

M. McCauley, Dr. McIntyre, C. D. Alger, A. R. Dickson and A. S. Rosenroll each withdrew their names from the convention by delivering brief, but forcible addresses.

A ballot was then taken in which Mr. Talbot, M.L.A., received a very large majority of the votes and in the midst of three rousing cheers was elected nominee of the convention.

After the adoption of the resolutions, addresses were delivered by C. W. Cross, of Edmonton; C. C. Reed, of Ponoka; Geo. Smith, of Duhamel; J. G. Tipson, of Strathcona; A. S. Rosenroll, M.L.A., and several others.

After successive cheers for the newly chosen nominee and the rendering of "God Save the King" perhaps the most successful and harmonious political convention ever held in Alberta came to a close.

Canadian Pacific Lands

F. T. Griffin, manager of the land department of the Canadian Pacific Railway, says:—

"While the company does not expect to sell as many acres this year as it has during some other seasons, it does expect to make more sales to actual settlers than ever before. These settlers will come largely from the United States although a big immigration will also arrive from Europe. We are making any effort to sell land in large tracts."

"Large sales will also, no doubt be made to settlers who have taken up Manitoba or Northwest Territories homesteads during the past few years. These have come to the conclusion that they need more land to feed a stock of 100 acres and will make the purchases now while land is still cheap. Even in the Galician settlements sales are quite active, many of the colonists adding an additional quarter section or more to their homesteads."

"The average price of Canadian Pacific Railway land is now between \$5 and \$6 an acre. Two years ago this land could almost uniformly be purchased for \$3 an acre and it is not unreasonable to suppose that any good agriculture land within a reasonable distance of a railway will within two or three years be worth \$10 an acre which is now practically the maximum price of the railway lands."

"The highest priced farming properties of the Canadian Pacific Railway are now situated in Manitoba and southeastern Assinibina. These lands held at about \$10 an acre though choice sections near town sites sometimes sell from \$20 for \$20 to \$40 an acre."

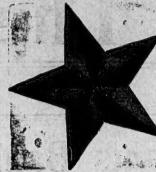

"At the present time the undivided lands of the Canadian Pacific Railway amount to 12,000,000 acres of which 350,000 are situated in Manitoba. Two years ago the company did not hold over a million acres of its land at \$3 an acre and this included the holdings in Manitoba and southeastern Assinibina. Now there are not over a million acres of the company's lands valued at less than \$1 an acre. This shows the remarkable settlement of the great Canadian wheat belt during the past two years." —Commercial.

Stomach Troubles

A disordered stomach may cause end of trouble. When the stomach fails to perform its functions the bowels become deranged, the liver and kidneys become diseased, and various diseases, the most fatal of which are jaundice and the more rare cancer, are produced. The best thing is to tone up the stomach and bring it into a healthy condition, and for this purpose no better medicine can be used than Chamberlain's Stomach and Liver Tonic. For sale by all druggists and dealers.

ORNITHOLOGY.

New Article on "Our Pasture as a Paradise." May Be Followed at All Times

Read This Week.

Any pastime or pursuit may, in my opinion, be more fascinating than the study of birds.

That which should interest every student of bird life, however, is an important factor in the cultivation of crops, the propagation of game, and the protection of property in some measure depends.

Many persons otherwise intelligent, capable, and interested in the welfare of the land, as if they were not sufficiently interesting in abundant knowledge of birds, are not

present, that may be followed at all times, for by constantly having your eyes open, you will be continually associated with many species, and continued observation will extend your knowledge. It is by experience that I have learned, writes James Macleod of Smyrna, Ont., in The Globe, though an experienced field sportsman, if the student is supplied with glasses, gun and roosters, is very happy, and, in fact, has the best opportunity for studying certain parts.

It is good to have a gun, especially in the beginning, for the shooting of birds, and the best place to begin is in the woods.

A Warning

The medical health law of the town of Wetaskiwin must be strictly observed, and every effort is being put forth to see that it is. A woman who stopped over night at one of the quarantined houses in town last week attended one of the patients, and when she left next morning for Ponoka was arrested upon her arrival there at the instance of the medical health officer and health committee, and was placed in quarantine, where she will remain for 14 days. This is a warning which those who have a tendency to violate the health law, will do well to heed.

What Happened To Jones? played last night to the largest house ever given a company here.

The play is clean with a laugh from start to finish and presented as it was by a capable company it gave those present a most enjoyable evening. Each and every member of the company is an artist. Millard Reid, as "Jones" being especially clever. Taken altogether the play and company was the best ever seen here and when they return with "Why Smith Left Home," we doubt if the house will hold the crowd.

The company is under the management of C. P. Walker, of Winnipeg, who is rapidly building up a reputation through western Canada as a producer of high class theatrical entertainments.
